# PAINT ACCESSORIES

**PropOne™**  
Ahead in performance

## ULC-Underwater Light Coating

ULC is a high transparency foul release coating designed for application to underwater light lenses. Brush application only.

7ml.

No. PGO 2059

**\$47<sup>24</sup>**

## Foul Release Coating System For Propellers And Running Gear

PropOne™ is a two-coat system comprising an anti-corrosive Primer coat and a foul release coating (clear coat). The clear coat is a non-biocidal, low energy coating which prevents organisms from strongly adhering to the surface of the propeller and fast moving components permanently immersed in water. Organisms can be easily dislodged once the boat is placed in drive. The coating prevents marine growth because it is slick; NOT by chemically poisoning the environment.

No.	SIZE	PRICE	PropOne™ is only to be applied by professional applicators.
PGO 2044	1 Liter Kit	\$337.49	
PGO 2047	1/2 Liter Kit Kit	\$224.99	
PGO 2050	1/4 Liter Kit Kit	\$121.49	

## Prop Wash

A Metal Cleaner For Use On Bronze and Stainless Steel. Prop Wash removes contamination you can't see to properly prepare metal surfaces for the PropOne™ Foul Release Coating System.

Do not use on anodes, aluminum or polished metal surfaces.

1 Liter

No. PGO 2039
