

Handheld Sonar System PX

Featherweight, Incredibly Easy, Very Effective... Not only will this sonar system give you instant depth readings, from 2.5 to 199 Feet in 1/10th precision, but at the press of a button the display will give real time temperature (water or air) and fish readings. Use it in the winter to shoot through ice before cutting your hole. Use it in the summer as a range finder and temperature meter while diving. Use it as a backup depth sounder on your pleasure boat or scan for channels in your dingy.
