

HUMMINBIRD Humminbird 500 Series

Highest Vertical Pixels with Advanced Features, Simple to Use and Built to Last.

Loaded with value and performance, the Fishfinder 500 Series features outstanding new high contrast display technology with up to 640 vertical pixel resolution to deliver a clearly better images. New Clear Edge Grayscale enhances definition and highlights not only the big fish, but the smallest fish, faintest structure and the thermocline layer. Plus, new accelerated Real Time Sonar operates at up to 40 times per second so you'll see all the action under the boat – instantly. Each unit incorporates legendary Humminbird ease of use and the only Tilt & Swivel Quick Disconnect Mounting System with no cables to plug in! And, because they're built by Humminbird in the USA, the 500 Series is backed by over 30 years of quality fishfinding technology.

Additional Features:

- Selectable 2x, 4x, 6x and 8x zoom levels
- Large digits view option for easy to read number display
- Microdynamic transducer for reliable readings up to 70 mph.
- Triplog with distance, elapsed time, and average speed (when speed is connected)
- Totally automatic, or totally manual operation with upper and lower range control
- Depth alarm, fish alarm and battery voltage monitor with alarm
- Adjustable chart speed with ultra setting
- Feature memory retains unit settings

- Selectable bottom view – choose Whileline, Inverse, Bottom Black or Traditional Structure ID
- Water surface temperature included, speed capable
- One-touch zoom view instantly enhances bottom detail to show fish from structure.
- X-Press™ menus for instant access to most important features with fewer button presses.
- Fully adjustable backlight for night fishing
- Gasketed, waterproof construction.
- Made in the USA

HUMMINBIRD Fishfinder 525

High 240 Vertical Pixel Resolution

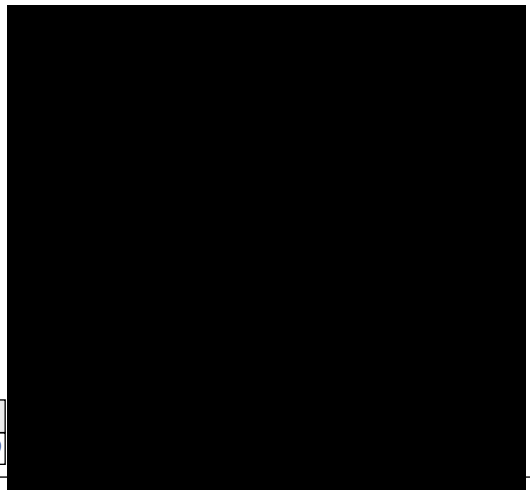

Key Features:

- Big 240V x 240H high contrast 5" LCD
- Precision 20° single beam sonar delivers better bottom detail
- Water temperature included

Specifications:

Depth Capability: 800'
 Display Type: 240V x 240H, 12 Level Grayscale High Contrast FSTN LCD
 Power Output: 1600 watts peak-to-peak, 200 watts RMS
 Operating Frequency: 200 kHz
 Sonar Coverage: 20° @ -10dB
 Transducer: Inside hull or transom mount
 Power Input Range: 10-20V DC
 Mounting: Tilt & swivel quick connect mount system
 Unit Size: Installed: 7" H x 7-1/4" W x 4" D;
 Head: 5-7/8" H x 7-1/4" W x 1-3/4" D

ORDER NO.	PRICE
HUM 4062601	\$165.99

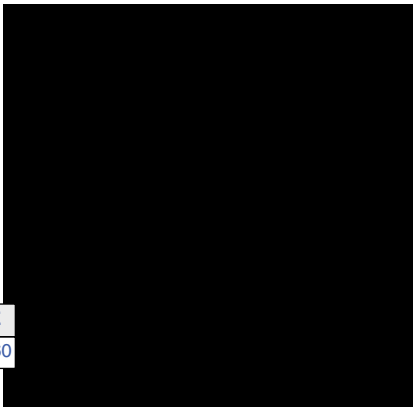

HUMMINBIRD Fishfinder 535

Very High 320 Vertical Pixel Resolution, Big Screen & Performance Features. See incredible detail with 5" High Definition 320V x 320H LCD and clear edge inverse grayscale for sharp images

Specifications:

Depth Capability: 800'
 Display Window: 5" diagonal
 Display Matrix: 320V x 320H
 Display Type: 12 level grayscale high contrast FSTN LCD
 Transducer: Inside hull or transom mount
 Unit Size: Installed: 7" H x 7-1/4" W x 4" D;
 Head: 5-7/8" H x 7-1/4" W x 1-3/4" D

ORDER NO.	PRICE
HUM 4059701	\$201.60

HUMMINBIRD Fishfinder 565

Ultra High 640 Vertical Pixel Resolution, Big Screen & Wide Coverage

- See the most detail with 5" high definition 640V x 320H LCD and clear edge inverse grayscale for sharp images.
- Dual beam sonar uses a wide 60° beam for fish identification and a precise 20° beam for better bottom detail. Choose Selective Fish ID+™ or make the call by viewing actual sonar returns. Fish ID+™ shows fish in wide beam as hollow symbols, and fish in narrow beam as solid symbols

Specifications:

Depth Capability: 800'
 Display Window: 5" diagonal
 Display Matrix: 640V x 320H
 Display Type: 12 level grayscale high contrast FSTN LCD
 Sonar Coverage: 20° & 60° @ -10dB
 Transducer: Inside hull or transom mount
 Power Input Range: 10-20 V DC
 Unit Size: Installed: 7" H x 7-1/4" W x 4" D;
 Head: 5-7/8" H x 7-1/4" W x 1-3/4" D
