

GPS MAP® 540s

It features a bright 5" QVGA color displays and come ready to launch right out of the box with built-in cartography, new worldwide satellite imagery, and a new streamlined user interface. The 540-series is preloaded with highly-detailed BlueChart® g2™ marine cartography of the coastal United States - including Alaska, Hawaii and the Bahamas. This data provides detailed coastlines, shaded depth contours, nav aids, port plans, wrecks, restricted areas and tide and current information. Plug in optional BlueChart® g2™ Vision cards to add true 3D-view detailed mapping capabilities (both above and below the waterline), plus helpful auto guidance, high-resolution photomapping detail, and "real picture" aerial photos of ports, harbors, marinas, waterways, navigation landmarks and other points of interest.

Product Features and Specifications GPSMAP 540S

- Ultra-bright 5" diagonal QVGA display, 320 x 240 pixels - 800 nits of brightness
- New streamlined user interface offers easy selection of functions and features
- Preloaded with worldwide satellite imagery and highly-detailed BlueChart g2 marine cartography of the coastal United States -including Alaska, Hawaii and the Bahamas. This data provides detailed coastlines, shaded depth contours, nav aids, port plans, wrecks, restricted areas and tide and current information.
- Preloaded with Explorer charts covering the Bahamas
- View weather overlays such as NEXRAD weather radar and forecasts, current conditions, wind direction, wave direction, wave height, buoy data, lightning, county warnings and much more with the optional GXM 31 antenna
- Single SD memory card slot for BlueChart g2 Vision cards, as well as saving waypoints, routes and tracks to a SD card which can be shared with others
- Built-in GPS antenna
- BNC connector for optional GA29 remote GPS antenna
- Backlit keypad for easier operation at night
- Two NMEA 0183 I/O ports
- CANet™ proprietary bus allows display and control of full feature sounder data on Garmin chartplotters
- Unit dimensions: 6.4" W x 5.9" H x 2.9" D
- New sounder design featuring excellent shallow water performance
- Power output: 500 watts (RMS) 4000 watts (peak to peak), dual frequency 400 watts (RMS) 3200 watts (peak to peak), dual beam
- Depth: 1,500 feet (dual frequency), 900 feet (dual beam)
- Includes a dual frequency transducer 50kHz (45°), 200kHz (10°)
- UltraScroll™ high rep rate sonar provides lightning-fast screen updates
- New AutoGain technology enhances target visibility
- See-Thru® technology: shows weak and strong returns simultaneously
- Water temperature log graphically records water temp data
- Round flasher display mode (in dual beam mode) and A-scope (in dual frequency mode)
- Whiteline
- Adjustable depth line helps gauge desired fishing levels and bottom clearance
- Split zoom display offers a closer look at fish targets and bottom structure
- 2X, 4X and bottomlock zoom
- Adjustable keel offset
- Alarms for fish size, shallow water, deep water and low battery

GMN 0101044705	Flush Mtg. Kit	\$26.99

GPSMAP® 535s

The 535s features high resolution, super-bright, video-quality 5" VGA display, with worldwide satellite imagery enhancing the Vector chart graphics. The 535-series comes preloaded with coast-to-coast cartography for inland U.S. waters, of which over 5000 of these lakes and navigable waters include invaluable details such as extra resolution, depth contours, boat ramps, mile markers, hazards, marinas, campgrounds, area roads, and more. (Contiguous 48 states only) The built-in sounder on the 535s combo model can scan as deep as 900 feet (with included dual beam transducer) to clearly paint depth contours, fish targets, structure, etc. The combo 535s also offers split-screen capability, so you can view map and sounder data simultaneously.

Product Features and Specifications

GPSMAP 535s

- Ultra-bright 5" diagonal full VGA display, 640 x 480 pixels - 800 nits of brightness
- New streamlined user interface offers easy selection of functions and features
- Preloaded with worldwide satellite imagery and U.S. inland lakes cartography
- Over 5000 lakes and navigable rivers with detailed shoreline information as well as depth contours, boat ramps, mile markers and more – Many lakes are enhanced with satellite imagery
- View weather overlays such as NEXRAD weather radar and forecasts, current conditions, wind direction, county warnings and much more with the optional GXM 31 antenna
- Single SD memory card slot - save waypoints, routes and tracks to a SD card and share this data with others
- Built-in GPS antenna
- BNC connector for optional GA29 remote GPS antenna
- Backlit keypad for easier operation at night
- Auto-dimming display
- Two NMEA 0183 ports to support both AIS and DSC
- CANet™ proprietary bus allows display and control of full feature sounder data on Garmin chartplotters
- Unit dimensions: 6.4" W x 5.9" H x 2.9" D
- Get 1 kW of digital sonar power using the 1 kW transducers
- Depth: 900 feet (dual beam), 1,500 feet (dual frequency)
- Includes a dual beam transducer 80kHz (45°), 200kHz (14°)
- Accepts BlueChart® g2™ Vision cards
- Patented transom/trolling mount transducer
- UltraScroll™ high rep rate sonar provides lightning-fast screen updates
- New AutoGain technology enhances target visibility
- See-Thru® technology: shows weak and strong returns simultaneously
- Water temperature log graphically records water temp data
- Round flasher display mode (in dual beam mode) and A-scope (in dual frequency mode)
- Whiteline
- Adjustable depth line helps gauge desired fishing levels and bottom clearance
- Split zoom display offers a closer look at fish targets and bottom structure
- 2X, 4X and bottomlock zoom
- Adjustable keel offset
- Alarms for fish size, shallow water, deep water and low battery
