jPort Jack for iPod or MP3 Players

Don't leave that iPod® or MP3 player on the table. The JENSEN® jPort™ provides direct audio interface between MP3 player headphone output and stereos.

Installation is easy. With 9 ft. of included cable, you can place the jPort™ at any convenient location. Simply plug the jack end into the back of your JENSEN® stereo and mount the jPort™ in the desired spot. Now you are ready to plug your iPod® or MP3 player into the port using the included audio cable. Stereo must be equipped with auxiliary input.

Waterproof Gimble Mount Stereo Housing

The MGH300 is the fundamental Gimble Mount water resistant housing unit for securing marine stereo systems in any outside environment. This unit is designed to hold a standard DIN mount marine stereo. Along with the added bonus of a side pocket storage area, the gimble housing unit is developed for easy universal installation, reliability, and precise fit. Keep any stereo system dry even when rocking the boat.
