

poly-planar inc. MRD-70 AM/FM/CD/MP3 Multi-Zone Component System
WATERPROOF MARINE AUDIO

The MRD-70 AM/FM/CD Receiver and RD44 Display are the base foundation for an expandable multi zone system that offers independent control in up to 4 zones equipped with the RD44 Remote Display and MZ100 Amp in each zone. Easily connected through a single watertight DIN type cable, each remote has independent control over the audio input source. The many unique features include an intercom that will allow communication between stations. Two auxiliary inputs on the receiver accommodate direct audio input from other audio sources/media players. Just plug in your iPod, TV or VCR and you have great audio throughout the system. The unique mounting system for the waterproof display accommodates Panel, Pod or bracket mounting.

- Features:
- AM/FM, CD and MP3 compatible
 - Waterproof design (Front panel IP65)
 - 2 Auxiliary inputs
 - 1 Auxiliary output Fixed Line output
 - No-Skip CD/MP3 with 10 sec. delay
 - Full control of audio functions and sources
 - 32 character back lighted display
 - Self dimming for night use
 - Back lighted key pad
 - Flush panel or gimbal bracket mount options
 - Integral intercom with speaker
 - Infrared remote control
 - DIN cable connection for MRD-70 or MZ100

WATERPROOF MARINE AUDIO

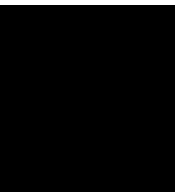

RD-44 Remote Head
The RD-44 is designed to control the audio functions and sources of the MRD-70 marine radio and the MZ-100 DSP Zone Amplifier. With versatile mounting options, the RD-44 can be installed up to 60 feet away from the radio or amplifier in a variety of positions. In addition, the built-in intercom function allows communication between the vessel's audio zones.

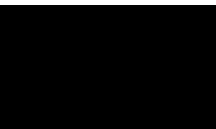

MZ-100 DSP Amplifier
The MZ-100 is a 4 channel 100 watt amp that uses digital signal processing. This unique feature allows multiple EQ settings as well as system integration with the RD-44 and MRD-70.

RT-20 Router
Connection module for expanding the MRD-70 or RD-44 to multi zones. The watertight DIN connectors are easy to connect. Just plug and play up to 3 additional zones. This Module also supports the Intercom volume on the Master zone.

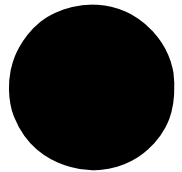

Extension Cables for MRD-70
Allows the remote installation of RD-44 heads, up to 60' from the MRD-70 source. Features waterproof connectors with our exclusive "pull-thru" caps.

poly-planar inc. WC70 Weather Cover F/MRD60W
WATERPROOF MARINE AUDIO

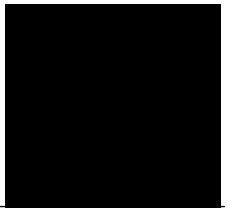

Full enclosure protects complete stereo from the marine environment. Gimbal bracket allows easy mount in or under an electronics box on the dash at the helm station. The system allows venting of the stereo amplifier heat sinks without exposing the chassis so the unit will not overheat even though it is protected from the exposure to the elements.

PLP MRR7W	Wired Remote	\$109.95
PLP IMR2	Interface For Multiple Remotes	\$29.95

poly-planar inc. AM/FM CD STEREO
WATERPROOF MARINE AUDIO

The front panel of the stereo is waterproof and does not require an additional cover when mounting the system above deck. The front panel folds down for easy CD loading, and then, when closed, a silicon rubber gasket keeps the unit tightly sealed. A bright electro-luminescent LCD display is easily visible both at night and in direct sunlight. The system has an integrated 4 channel amplifier that produces up to 45 watts per channel for a total system power of 180 watts. The amplifier has a distortion limiting feature that illuminates 1/2 clipping² at maximum gain and provides high quality sound even at full volume. A unique Audio Port allows the addition of features such as hard wired remote controls with intercom, pre amp outputs for amplifiers (variable and fixed) plus auxiliary inputs for such sound sources as a VHF radio or a TV set.
